Education

Texas A&M University- San Antonio. Bachelor of Science (B.S) in Computer Science.

08/2021 - 05/2025

Dean's List: Fall 2024 - Spring 2025

Work Experience

Front of House Staff. San Antonio, TX.

04/2024 - Current

Picnikins Patio Cafe

- Provide exceptional customer service in a fast-paced environment.
- Handle phone calls, customer inquiries, and cashier duties.
- Build positive relationships with customers, ensuring satisfaction and repeat business.
- Maintain accuracy and attention to detail during high-volume transactions.

Teaching Assistant. San Antonio, TX.

10/2017 - 10/2018

Austin Coding Academy

- Preparing and delivering coding lessons for students.
- Provide one-on-one tutoring to help students understand key concepts in programming and web development
- Guide students on project development and problem-solving

Projects

Personal Portfolio Website

- Built a responsive portfolio website using Next.js, HTML, CSS, and TypeScript to showcase personal projects and skills.
- Applied modern design principles for smooth navigation with a polished user experience.

Swift Tarot App

- Designed and built an iOS application using Swift to provide daily tarot readings and educational materials.
- Focused on creating an intuitive UI/UX for seamless user interaction.

VulGPT | AI-Powered Vulnerability Detection Tool

- Collaborated on an AI-powered vulnerability detection tool using Python, Neo4j, and API integration.
- Implemented updates and improvements to the system's scanning process, utilizing Python for efficient data processing and Neo4j for storing and querying vulnerability data in a graph-based database.
- Integrated APIs to fetch real-time vulnerability data, ensuring accurate and up-to-date results.
- Utilized LLM (Large Language Model) prompt engineering to enhance the tool's ability to interpret complex code and provide actionable insights.

Skills

- **Programming Languages:** Java, Python, PHP, Kotlin, Swift, Bash
- **Web Development:** HTML, CSS, JavaScript, TypeScript, NextJS, React, Bootstrap
- **Tools & Technologies:** Git, GitHub, JUnit, Static Analysis, Linux, SQL, neo4j

Extracurricular Activities

Volunteer. San Antonio, TX.

05/2023 - 03/2024

Youth Code Jam

- Participated in workshops making coding and computer science accessible for K-12 students.
- Promoted diversity and inclusion in tech by helping young learners discover programming through hands-on activities.
